Re: CNA Certification for Certified Nurse Assistant Program

This letter is intended to document the agreement between Brookings High School CTE and Brookview Manor. As the BHS CTE CNA course is approved for the classroom instruction (75 hours didactic) for students to become a certified nurse assistant, Brookview Manor will be the site available for clinical instruction and testing needed for certification. As the CTE course is a full year course, students will need to finish both semesters to be eligible for clinical instruction and testing. Per ARSD 44:04:18:15, a minimum of 16 hours of supervised practical instruction with enough instructors to ensure safe and effective care must be completed at BVM prior to testing; the instructor ratio may not exceed eight students for one instructor. With regard to the supervision of students: Per ARSD 44:04:18:13, students in a nurse aide training program may not perform any services unless they have been trained and found to be proficient by the primary instructor. Students in a training program may perform services only under the supervision of a licensed nurse (RN and/or LPN). Vicki Creswell, a Registered Nurse at Brookview Manor, has agreed to organize and teach students during their required clinical hours.
